Increasing Medicare payment to physicians for surgeries has been based on how much surgery costs to provide. Increasing Medicare payment to physicians for hospital services has been based on the severity of a patient's condition. We calculated the increase in payment that should be paid to physicians in the last 10 years, and we're comparing it to what Medicare paid them before July 1st, 2009. Dr. Feinstein, do you want to go first or is it your turn? DR. JOSEPH FINEENSTEIN: Our time, I think. Dr. Hauser, do you want to go next, or is it your turn? DR. NEIL HAUSER: I'd like to go first. I'm interested in how it was decided that the payment increases should be based on cost, but the payment for hospitals should be based on the patient's condition.
